SUMMARY

Software Engineering student with hands-on experience in web and mobile application development using modern technologies such as JavaScript, Flutter, and Dart. Proven ability to collaborate in Agile, cross-functional teams and contribute to multiple projects, including academic and real-world applications. Skilled in problem-solving, debugging, and building scalable solutions, with a strong academic record and passion for continuous learning and innovation.

EXPERIENCE

07/2025 - 09/2025

Intern/Software Developer

NeoCloud Solutions

- Developed cross-platform mobile features using Flutter and Dart in an Agile team.
- Contributed to multiple app projects, delivering features across different modules.
- Built a personal mobile app, applying best practices from team projects.
- Collaborated with cross-functional teams to design, develop, and test app features.

07/2024 - 09/2024

Student Intern

Finesse Integrated Technologies Limited

- Collaborated with cross-functional teams in an Agile environment to deliver web features.
- Built and improved responsive UI components, enhancing user experience.
- Participated in daily stand-ups, sprint planning, and retrospectives.

EDUCATION

10/2022 - 11/2026

Software Engineering

Nile University of Nigeria

Bachelor of Science

- Graduated with a GPA of 4.97, ranking 2nd overall in the cohort.
- Awarded a 40% academic scholarship for outstanding performance in JAMB, maintained throughout university.
- Developed multiple academic software projects, including a university blog, book review web app, and a clinic management system for the school's medical center.
- Participated in workshops, career symposiums, and technical training programs to enhance professional development.
- Represented the university at conferences and excursions, including NigComSat Satellite Week (March 2026)
- Active member of the Debate Club, strengthening communication and critical thinking skills.

CERTIFICATES

2026 - Present

Cyber Threat Management

Cisco Networking Academy

Earned the Cisco Cyber Threat Management Certificatio, which provided intermediate and advanced knowledge and skills that for use as a Cybersecurity Technician.

2025 - Present

HCIA-Datacom V1.0

Huawei Talent Online

Achieved the HCIA-Datacom V1.0 certification from Huawei, developing practical understanding of network fundamentals, routing and switching, and enterprise data communication systems

2024 - Present

Responsive Web Design

freeCodeCamp

Completed the Responsive Web Design Certification from freeCodeCamp, building skills in HTML, CSS, and mobile-first design principles.

2023 - Present

Introduction to Cyber Security

Cisco

Earned the Introduction to Cybersecurity certificate from Cisco, developing a solid understanding of threat landscapes, network security basics, and risk mitigation practices.

PROJECTS

10/2025 - 07/2026

Project Manager and Developer

Nile University Clinic Management System

Led and contributed to the development of a clinic management system for the University Medical Centre, serving as both Project Manager and full-stack developer. Managed project coordination while independently designing and implementing the backend using Node.js, Express.js, and MongoDB.

08/2025 - 07/2025

Mobile App Developer

NeoCloud Mobile Application

Contributed to the design and development of a NeoCloud mobile application as part of a cross-functional team. Assisted in implementing key features and user interface components, focusing on building a responsive and seamless mobile experience.

08/2025 - 09/2025

Mobile App Developer

Plately - A Food Delivery Service

Designed and developed a food delivery mobile application built with Flutter and Dart, using Firebase as a backend-as-a-service. Implemented core features such as restaurant browsing, food ordering, and real-time data synchronization.

04/2025 - 06/2025

Technical Lead

Book Haven - A Book Review Community

Developed a full-stack book review web application integrating the Open Library API to fetch and display book metadata including ISBNs, authors, descriptions, and related details. Focused on delivering a responsive and user-friendly interface to enhance book discovery and engagement.

03/2024 - 05/2024

Front-End Developer

Through Nile's Eyes

Contributed to the front-end development of a dynamic and responsive Nile University blog platform. Translated UI/UX designs created by designers into a fully functional interface using modern front-end technologies.
